### A MESSAGE FROM YOUR BOARD MEMBERS

We wish to thank our City Manager for presenting our problem to BFI Waste Systems, (Browning-Ferris Industries) about the problems our office/museum had been having with the company that was picking up our waste disposal tank. BFI has taken over that job and has donated their service to our cause. We wish to thank **John Zirelli** for the fast, professional job he and his workers have done. Browning-Ferris Industries also joined our Association when they first took over Daly City Scavengers. They are an asset to our community.

Colma was toured recently by a New York Times reporter for a story to be written about Colma, the present and the past. The reporter was given a special tour of two unique places here. One was the state of art crematory at Olivet and the building at Old Mission Rd. and El Camino Real which Cypress Lawn built to restore their stained glass. Both of these places are unique in Colma and the world. Our town is not only special but unusual. We should be proud of our treasures as there are many. We hope to plan some tours in the near future. If any of you have ideas of what you particularly feel should be on the tour, let us know. All ideas are gratefully appreciated.
